Customer Reviews

This format is NOT my cup of tea. (See my comments on Mr. Clem's Study Guides) BUT for under 2 bucks, it is a good deal. I like the second half better because he shows the answer in context of the wrong answers. On Ele. 8 this is less a problem than with other Ele. I admit. For example: if the correct answer is 'Both A. and C.' but it doesn't show A and C.. it's hard to know what the answer would be if (as they often do) the examiners shuffle the order of the answer choices. Overall, a great value.
