Customer Reviews

I love this whole line! Great way to use our fave books and expand them into fun learning opportunities. I've modified some of the activities for in-home use as added intentional learning time after nap. My daughter seems to love it.

3 stars because I feel it could have more than one basic idea for each children's book. It also needs an index with listings by children's books. I love the concept however.

I ordered these books 18 years ago I was happy to find them again. I would recommend these bks to anyone in Early Childhood.
